Final Note by the First Member of Council.

Subject:—

Retirement of Mr. G. H. Krumbiegel, Director of Horticulture, and consequential arrangements.

The extension of service allowed to Mr. G. H. Krumbiegel, Director of Horticulture, expires on the 30th June next and the question of arrangements to be made for filling up the place which will fall vacant on his retirement, was considered by the Council on the 8th instant. The opinion of the Council is as under:-

> "The Superintendent will, for the present, be in charge of the Gardens Department. The question of placing the Department under the Director of Agriculture may be considered later on. The designation "Director of Horticulture" will be abolished. The pay of the Superintendent will remain unchanged."

2) The work of the Horticultural Department falls broadly under two classes: 1) care and supervision of all public gardens, the Nandhi Hill Station and the Museum, and, 2) improvement and development of fruit and vegetable cultivation.

3) Work coming under class 2) is of a scientific character and requires to be attended to by a staff possessing the necessary scientific equipment. The Horticultural Department has done valuable work in introducing some exotic fruits, especially apples, and finding out which variety of them will do well in the State. There is great need for undertaking a programme of investigations for conducting breeding work on indigenous fruits and vegetables with a view to evolve strains whose yield is plentiful and whose food value is high. The Agricultural Department

is

is more fitted to carry on this work than the Gardens Department as it has a highly trained scientific staff and also well equipped laboratories. It is proposed to consider this question on the return of Dr. Coleman from leave.

4) It is not considered necessary to retain the designation of Director of Horticulture and the Head of the Department may be called the Superintendent, Government Gardens. This is the designation of Mr. H. C. Javaraya and it is proposed to continue it. The pay of the Superintendent is Rs 400-30-700 and it will remain unchanged.

5) In the circumstances explained above, I solicit the gracious sanction of His Highness to the proposals contained in the Council Resolution.

6) Mr. Krumbiegel is doing the work of Consulting Architect and what arrangements should be made for it, will be separately considered and proposals submitted in due course.

Dewan's Minute in University File No.129 of 1931 with reference to the proposal to appoint Mr.B.Venkoba Rao as Technical Assistant to Muzrai Commissioner.

When the present Consulting Architect retires at the end of June, the entire staff of draughtsmen etc is proposed to be transferred to the Chief Engineer's Office and they will work under the new Consulting Architect who will be attached to the Chief Engineer's Office. Mr.Venkoba Rao will have to work under his orders and form part of his establishment.

2. I am not in favour of making Venkoba Rao an independent Officer in regard to repairs to ancient monuments and temples.

He need not be a sort of Assistant to the Muzrai Commissioner. His place is in the Chief Engineer's Office under an officer like Mr.Lakshminarasappa.

3. Repairs etc to ancient monuments will be carried out by the Public Works Department under instructions and on the advice of an Architect, who will consult the Archaeologist in all important cases.

4. The Muzrai Commissioner will indent on the services of the Government Architect whenever needed. It should be the Muzrai Commissioner's duty to allot funds atd the various institutions in the order of urgency and importance. I do not think anything more than this arrangements is required.
